Dear Raymond,

To say are pleased is an understatement. My wife and I continue to receive compliments and inquiries from neighbors on our roof. The entire look of the house has improved immeasurably and now we can move onto other interior projects worry free (I know a little something about weather, but wind, rain and snow are now the least of my concerns). Furthermore, the window and wood repairs your team completed around our house were the ideal compliment to the roof. The finished work gives our home a fresh new appearance.

Your workers were neat and courteous. You, Ben and the rest of your team could not have been more pleasant and professional throughout the transaction. Thank you again and I look forward to additional projects in the future. I won't hesitate to refer you to any of my family and friends.

Tim and Sandy Williams
